

Zakaria .dev — Portfolio Form Answers

Copy-paste guide for tunisiefreelance.tn · keep this page open while filling the form

1 — Project Title

Freelance Web Developer Portfolio – 6 Live Project Showcases

2 — Your Role

Front-end Web Developer

3 — Project Description (570 / 600 characters ✓)

Full web development, idea to launch. I build complete websites and web apps: business sites, e-commerce stores with cart and checkout, booking systems, lead capture funnels, dashboards with real databases, working contact forms, custom admin panels. Clean hand-coded HTML, CSS and JavaScript, pixel-perfect responsive design, professional animations and 3D effects, fast loads (<2s), SEO-ready. Every project ships with hosting 24/7, custom domain (yourname.com), full source code, database, and guides – you own everything. Live proof on every skill in this portfolio.

4 — Skills (paste into "comma-separated" field, press Enter)

First list (one paste):

HTML, CSS, JavaScript, Responsive Web Design, Landing Pages, Lead Generation, SEO, E-commerce Development, UI/UX Design, 3D Animations, Scroll Animations, SQL Databases (SQLite/MySQL/PostgreSQL), Admin Dashboards, Booking Systems, Web Performance, Custom Domain Setup, Hosting & Deployment, Brand-Matched Design

Then add any remaining ones one-by-one as chips: Contact Forms, Design Systems

⚠ Only claim what you can deliver — this list is verified against the live portfolio.

5 — Embed a Link (click "Add" after pasting)

<https://01a0c3c1-cf49-79f8-aff5-2354b37f5530.skydive.app/>

6 — Text Block 1

Heading:

What's included with every project

Content:

- **Live 24/7 website** – hosted and reachable from anywhere
- **Full source code** – one clean, editable file; no locked platforms
- **Real database** – contact form messages saved and backed up
- **Admin dashboard** – private login to read client messages
- **Custom domain setup** – yourname.com connected end-to-end
- **Hosting guides** – move the site anywhere, free or paid
- **24h reply time** – fast communication from kickoff to launch

7 — Text Block 2

Heading:

Why work with me

Content:

- **Proof over promises** – every skill is demonstrated by a live page in this portfolio. Click any project and judge for yourself.
- **Honest scoping** – I only claim what I can deliver.
- **You own everything** – final handover includes code, database, and guides written in plain language.

8 — Thumbnail / Cover Image

Take a screenshot of the homepage hero (black background, big white headline "Websites that turn visitors into customers.") and upload it as the cover image.

9 — Example chips (how skills should look once added)
